ABOUT ME

As an experienced Full Stack Developer, I have a deep understanding of the entire web development process, from front-end development to back-end programming, database management and hosting. I am a creative problem-solver with a focus on delivering user-centered solutions. I am a highly motivated and self-driven individual, with a passion for technology and a commitment to delivering high-quality work. I am open to new opportunities and welcome the chance to connect with other professionals in the industry.

Main Tech Stack: JavaScript, ReactJS, Angular, ASP.net C#, Node.js, CSS, HTML, jQuery, SQL.

Finally, I have strong knowledge in working as data analyst skilled in power BI, Tableau, MySQL, python.

WORK EXPERIENCE

09/2022 – 03/2024 Dubai, United Arab Emirates

Software developer ISAP Solutions

- Develop interactive, user-friendly web applications using modern front end technologies (React, or Angular).
- Collaborate with back end developers and designers to implement responsive and visually appealing user interfaces.
- Optimize web applications for maximum speed and scalability.
- Building Back-end Systems: also i work on the server-side of applications, handling tasks such as database interactions, user authentication, and server-side logic. i am using Node.js to server-side.
- Ensure cross-browser and cross-device compatibility.
- Conduct code reviews, identify areas for improvement, and maintain high-quality coding standards.
- Stay up-to-date with the latest front and back end development trends, tools, and technologies.
- Actively participate in brainstorming sessions and contribute innovative ideas to enhance user experiences.

12/2020 – 09/2022 Kosti, Sudan

Front End developer Almassar charity Organization

- Designed impactful donation websites for Almassar Charity, Kosti, Sudan, focusing on refugee support.
- Collaborated on user-friendly interfaces using React JS for dynamic and responsive web experiences.
- Conducted usability tests and ensured cross-browser compatibility.
- Worked closely with back-end developers and contributed to coding standards.
- Stayed updated on industry trends to enhance design projects.

01/2020 – 12/2020 Khartoum, Sudan

Front End developer Enigma

- Drove React JS development at Enigma, Khartoum.
- Translated requirements into dynamic web interfaces for optimal user experience.
- Collaborated on seamless integration and maintained coding standards.
- Ensured cross-browser compatibility and contributed to project planning.
